DIGITIZING THE OLDEST COMPLETE GREEK BIBLE: THE CODEX SINAITICUS PROJECT (JUAN GARCÉS)

The Codex Sinaiticus Project is an international collaboration to reunite the entire manuscript in digital form—text, high quality images, and metadata—and make it accessible to a global audience for the first time. Drawing on the expertise of leading scholars, conservators, and curators, the Project gives everyone the opportunity to connect directly with this famous artefact. This seminar will present the concept behind the digital edition of this manuscript.
